WALT: structure a letter (BOAT - 6.2.3)

Dear Ezra Wilkinson.

I am writing to tell you why I sent you the Canopic jar that I found in Egypt.

I found this jar two weeks ago while I was diving to find a tomb. I tumbled through a hole so I took a peek inside. When I entered, I found ancient penny brown artifacts so I looked even closer. That was when I found the jar. It was a rough, shiny canopic jar that had a head of a Baboon that protected the ruby-red, bloody lungs inside.

As soon as I took it, I needed to send it to you: the sun king awoke from the dead and chased me because I stole his organs. Take great care of it and make sure the sun king doesn't find it or he will kill you and take your organs as I took his jar and gave it to you.

I am coming to England in 24 hours. It is vital we meet at your shop on Wednesday at 12:30pm so we can discuss what we do with the jar. Your sincerely, Selim
