

Class Newsletter-Year 2

Spring Term

Squirrel class

Teacher: Mrs Green

LSA: Mrs Randall

Badger class

Teacher: Miss Koenig

LSA: Mrs Warbuton, Mrs Thomas

@TwoOasis

Maths:

This term we will be focusing on fractions and money. We will learn to find fractions of both numbers and shapes before moving on to find specific amounts of money in different ways.

Help at home by looking at the time or making different amounts using coins.

English:

The story we are learning this term is called The Magic Paintbrush.

We will continue working on writing different types of sentences, from questions to commands, and we will continue to work on writing stories in the past tense.

Topic: WHAT'S IT LIKE IN CHINA?

In both terms 3 and 4 we will be studying China. To start this topic off we will have a visit from Bristol Museum where we will try some Chinese traditions. Then we will investigate Chinese culture with a particular focus on New Year. We will look at the traditional celebrations and try cooking some traditional food. In Geography we will learn to name the oceans and continents before using Asian animals to learn about habitats and food chains in Science.

Swimming

This term all Year Two children will be swimming on **Wednesday** afternoons. All children must bring their kit as PE is a requirement of the curriculum. If a child does not bring their kit, they will not be able to take part.

Please remember earrings are not allowed.

Uniform

Please ensure **all** uniform is labelled with your child's name, including jumpers and PE kit.

Spellings

This term our spellings are particularly tricky. There are lots of rules involved so it's extra important to practise! It really does make a difference! Little and often is the perfect way to help at home— or try playing games such as hangman.

Thank you for your continued support.

Reading

PLEASE PLEASE keep reading. We need the children to be at least a level 23 to access their SATs in May.
