

Class Newsletter-Year 3

Spring Term

Robin class

Teacher: Miss Abbott & Miss Lewsley

LSA: Mrs Weeks/Mrs Catron

Dove class

Teachers: Mrs Mack

LSA: Miss Broddle

Maths:

This term we shall be learning about angles, shapes and measure. We will encounter lots of new vocabulary including parallel and perpendicular.

It would also be fantastic to see lots more children achieving their times tables certificates this term. You can really support them by helping them to learn their tables at home.

English:

This term we will continue using the text *Stone Age Boy* as our stimulus for writing. We will be focusing on writing a non-fiction information report about the Stone Age using sub-headings and paragraphs.

Our class text will be *The Ice Monster* by David Walhams.

Topic: How have rocks shapes our planet?

This term we will continue learning about the importance of rocks in our world. In science, this will take the form of more experiments to explore fossils and soil and in History, we will continue our chronological exploration of the Stone Age.

We will also be including Computing in our topic this term. We will use Scratch to produce algorithms for Stone Age characters.

We have a couple of trips this term so please keep your eyes out for information soon.

Spelling and Homework

Thank you for your support with homework and practising spelling.

We have noticed that fewer books are being returned each week. Please make sure they do come back so that all children have the opportunity to practise learning.

Please ensure that all clothes are labelled with your child's name. We have lots of lost jumpers and no names to return them!

Bristol Sport

We will continue to have Bristol sport for our PE sessions this term. Lessons are on a Tuesday afternoon and can be outdoors. We have noticed fewer PE kits making it into school.

Please ensure that appropriate clothing is in school for each lesson.
