## Every day Matters!

### Term dates:

#### Term 1 -

1/09/2020 - 23/10/2020

**INSET** - Friday 16th Oct - Academy closed to all children

Please remember that we are not able to authorise holidays in term. If you take your child out of school for this it will result in a penalty notice.

### Attendance

Last week was our best week so far for attendance across the Academy. We ended the week with an Academy total of 96.3% which is amazing in these challenging times. Thank you so much for your ongoing support with getting your children in school every day and on time. This is having a really positive impact on their learning and progress.

- ★ Well done Woodpeckers for best attendance last week!
- ★ Well done Herons for the most improved attendance last week!

As I am sure you are aware there are a few schools that have had to close for some year groups and classes after taking advice from Public Health England. In order to support us in managing any positive cases of COVID-19 as quickly as possible we have set up a contact email for you to use to report a positive test result if you receive this **after school or at the weekend**.

[covid.alert@oasislongcross.org](mailto:covid.alert@oasislongcross.org)

If you receive a positive test result during the school day please call the office immediately on 01179 030333

## Our learning!

### Rabbits class

Rabbits have learning about FARMS this week! We pass a farm in our class story!

We were practicing the sounds that farm animals make! Rabbits favourite sounds to copy was MOO!

### Reception

Last week children in Reception went on a Bear hunt! They made up their own version of the story and they were comparing the size of objects from 'the three bears' house. They are so good at telling the story now ... ask them to tell you it!

### Year 4

Year 4 have been exploring what life was like for rich and poor Romans, including what food they eat. We've also been learning about Roman myths and legends before we write our own.

### Year 2

Year 2 were being Geographers last week and explored the human and physical features of Bristol and discovered new places around the city such as The Downs

### Hedgehogs class

Hedgehogs have been making faces with everything! This has included yummy smelling chocolate playdough, with some children using fantastic language to describe the process!

### Year 1

Last week the children in Year 1 were learning all about Lawrence Weston. They were finding human and physical features that are in Lawrence Weston and beyond! They have started to find out what makes our community so amazing.

### Bumblebees class

Bumblebees have been learning all about the story of the Little Red Hen. Last week they loved making bread like the Little Red Hen and then ate it for their snack.

## Hello

I'm Sadie, the Community Engagement worker!

I'm looking to get parents involved with some new projects around the school!

If you see me come and say hi and ask me about it, or drop me a text if you're interested
